## EXPERIENCE

### Designer

**Pro One design & construction Limited**

**October 2018 – November 2024**

- Handled FF&E procurement, and installation, ensuring quality and consistency across projects.
- Communicate and cooperate closely with project leader to ensure smooth delivery of space on time and on budget.
- Created clear, detailed drawing packages covering everything from technical plans to final layouts, including accurate renderings and adjustments. These thorough drawings boosted installation efficiency and reduced misunderstandings, helping projects run smoothly and on schedule.
- Key Project: dyson, Panasonic, Rasonic, Tefal and more.
- Developed a bespoke design concept for Panasonic, elevating the brand's retail presence and improving customer engagement.

### Interior Designer

**Caveman Studio Limited**

**October 2018 – August 2022**

- Completed a wide range of projects with working team, including residential and commercial projects.
- Coordinated with clients, consultants, and contractors to ensure timely project execution that met business requirements.
- Conducted site visits to monitor progress and ensure adherence to design specifications.
- Managed projects to completion ahead of deadlines, providing clear instructions and detailed drawings that cut project delays. This approach helped streamline the work process and kept everyone aligned, ensuring smooth progress and timely delivery.
- Improved project efficiency by providing clear instructions and detailed drawings, reducing delays and ensuring smooth execution.
- Strengthened client relationships through effective collaboration, aligning project outcomes with client expectation.

### Designer

**Seto Design & Construction**

**April 2017 – September 2018**

- Cooperate with brand marketing team and related parties to develop the creative ideas to visual execution.
- Created clear construction drawings that helped improve collaboration with other designers. By providing these detailed drawings, ensured that all team members were aligned, leading to a smoother workflow throughout the project.
- Produced compelling visual concepts for interior spaces, utilizing design software such as AutoCAD and SketchUp, which enhanced clarity and precision in project visualizations.

### Assistant Interior Designer

**Well Design Constrution Limited**

**October 2012 – February 2017**

- Managed interior design presentations and produced comprehensive construction drawings, delivering clear visuals and detailed plans that aligned with client expectations.
- Led sourcing for materials and accessories, carefully selecting items that aligned with project aesthetics, budget, and quality standards.
- Conducted regular site visits to monitor progress and provided updates to the Project Manager, ensuring alignment with design specifications and timelines.
